

Section 1: Identification of the Substance/Mixture and of Supplier

Product name: PH BUFFER
Recommended use: Balance the pH in pools and spas
Supplier: Space Industries Limited
Street Address: 160 Plunket Ave,
 Wiri, Auckland
 New Zealand
Telephone Number: + 64 9 262 3902
Facsimile: + 64 9 262 3948
E-mail: orders@spaceindustries.co.nz
Website: www.spaceindustries.co.nz
Emergency Telephone: 0800 764 766 (all hours)
Date of preparation: March 2021

Section 2: Hazards Identification

Hazard Classification: NOT Hazardous according to criteria of NOHSC/ASCC

Section 3: Composition/information on ingredients

Product Description: Balance the pH in pools and spas
Component(s): SODIUM BICARBONATE
CAS Number: 144-55-8
Proportion: >99%

Section 4: First Aid Measures

Show this Safety Data Sheet to a Doctor

Inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing.
Skin Contact: Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
Eye Contact: Irrigate eyes with generous quantities of water for 15 minutes. Remove contact lenses, if present and easy to do. Seek immediate medical attention.
Ingestion: Rinse mouth. DO NOT induce vomiting. Give a glass of water to effectively dilute the product. Seek immediate medical attention
Notes for the Doctor: Treat symptomatically.

For advice, contact the Poisons Information Centre 0800 764 766 or a doctor

Section 5: Fire Fighting Measures

Specific Hazards:	Non-combustible solid. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.
Suitable Extinguishing Media:	Incompatible with oxidizing agents, acids, water and sources of ignition. When involved in a fire, this product may generate sodium compounds, carbon dioxide, usually without carbon monoxide and smoke
Fire-fighting advice:	Extinguish fires with water spray, foam, carbon dioxide or dry chemical powder.
	Fire fighters should wear a self contained breathing apparatus and full protective clothing along with protective equipment.

Section 6: Accidental Release Measures

Emergency Procedures	Personnel involved in the clean up should wear full protective clothing. Eliminate all sources of ignition. Increase ventilation. Avoid generating dust. Do not allow product to reach drains, sewers or waterways. If the product does enter a waterway, advise the Environmental Protection Authority or your local Waste Management.
Methods and Materials for Containment and Clean Up	Contain and sweep/shovel up spills with dust binding material or use an industrial vacuum cleaner. Transfer to a suitable, labelled waste container and dispose of promptly. Once pick up is complete, flush spill site with plenty of water to eliminate any residue preventing run-off from entering drains.

Section 7: Handling and Storage

Handling:	<ul style="list-style-type: none"> • Ensure an eye bath and safety shower are available and ready for use. • Observe good personal hygiene practices and recommended procedures. • Do not breathe in dust. • Wash hands thoroughly after handling. • Do not eat, drink or smoke when using this product. • Store away from foodstuffs. • Avoid eye and skin contact.
Storage:	<ul style="list-style-type: none"> • Keep only in original container. • Store in a cool, dry, well-ventilated area. • Keep containers tightly closed when not in use. • Inspect regularly for deficiencies such as damage or leaks. • Protect against physical damage. • Store away from incompatible materials including oxidizing agents, acids, water and sources of ignition. • Protect from direct sunlight and moisture. • Store below 30°C in temperature. • Keep containers away from water.

Section 8: Exposure Controls/Personal Protection

Occupational Exposure Limits:	No value assigned for this specific material by the New Zealand Occupational Safety and Health Service (OSH).
Engineering Control Measures:	Use in well ventilated area. Avoid breathing in dust.
Personal Protective Equipment:	Safety glasses Dust mask. PVC gloves

Section 9: Physical and Chemical Properties

Physical state:	Crystalline powder
Colour:	White
Odour:	Odourless
Boling/melting Point:	70°C
Specific Gravity/Bulk	2.159 (water = 1)
Vapour Pressure:	Practically none
Flash Point (°C):	None
Percent Volatilise:	Not available
Flammability Limits:	Not available
Autoignition Temperature:	Not available
pH	8.4 (1% solution)

Section 10: Stability and Reactivity

Stability:	Product is stable under normal conditions of use, storage and temperature.
Conditions to Avoid	Avoid excessive heat, generating dust, direct sunlight, moisture and high temperatures
Incompatible Materials	Incompatible with oxidizing agents, acids, water and sources of ignition.
Hazardous Decomposition Products	When involved in a fire, this product may generate sodium compounds, carbon dioxide, usually without carbon monoxide and smoke

Section 11: Toxicological Information

Ingestion:	Can cause irritation.
Eye contact:	Can cause irritation.
Skin contact:	Not likely to cause irritation .
Inhalation:	Capable of causing irritation if dusty.

Section 12: Ecological Information

Environmental fate, persistence and degradation:	Avoid contaminating waterways. Biodegradable
---	---

Section 13: Disposal Considerations

- Recycle wherever possible. Special hazard may exist - specialist advice may be required.
 - Consult approved Waste Management Company for disposal options.
 - Treat and neutralise residue at an approved site.
 - Decontaminate empty containers. Observe all label safeguards until containers are cleaned and destroyed.
 - Puncture containers to prevent re-use and bury at an authorised landfill.
- Do not incinerate.

Section 14: Transport Information
Road and Rail Transport:

Classified as a non - dangerous Good according to NZS 5433:1999 Transport of Dangerous Goods on Land. It is not classed as a dangerous good for sea transport.

Section 15: Regulatory Information
Classification:

NOT Hazardous according to criteria of NOHSC/ASCC

Section 16: Other Information

.Issue Date: March 2021
