Country Mile Brush Kill

Page 1 of 8

Section 1 - Identification of the substance/preparation and the company

Product Name	Country M	ile Brush Kill
Manufacturer	Donaghys	Ltd.
Address	16 Sheffie PO Box 20 Christchur	
Telephone Number	NZ	0800 942 006.
	AUS	1800 644 404.
Recommended Use	Selective I	nerbicide.
Emergency Contact	0800 764	766 (National Poisons Centre).

Section 2 – Hazard Identification

Classified as hazardous according to criteria in the Hazardous Substances (minimum degrees of hazards) Regulations 2001

EPA NZ Approval Code	HSR0024	485
	HSN	IO Classification
	6.1D	Acutely toxic – harmful.
\wedge	6.3B	Mildly irritating to the skin.
\mathbf{V}	6.4A	Irritating to the eye.
	6.5B	Contact sensitizer.
	6.9B	Harmful to human target organs or systems.
	9.1A	Very ecotoxic to the aquatic environment.
¥.	9.1B	Ecotoxic to the aquatic environment.
	9.2A	Very ecotoxic to the soil environment.
	9.3C	Harmful to the terrestrial vertebrates.
Hazard Statements		
H332	Harmful i	n inhaled.
H302	Harmful i	f swallowed.
H312	Harmful i	n contact with skin.
H316	Causes n	nild skin irritation.
H317	May caus	se allergic skin reaction.
H371/373	May caus exposure	se damage to organs through prolonged or repeated
H400/410	Very toxic	c to aquatic life with long lasting effects.

H421Very toxic to the soil environment.H433Harmful to terrestrial vertebrates.Prevention Statements (for more information see section 7)P102Keep out of reach of children.P103Read label before use.P261Avoid breathing fume/mist/vapours or spray.P271Use only outdoors or in a well ventilated area.P264Wash hands thoroughly after handling.P270Do not eat, drink or smoke when using this product.P272Contaminated work clothing should not be allowed out of the workplace.P273Avoid release to the environment.P280Wear protective glove, clothing and eyes/face protection.Response Statements (for more information see section 4)If medical advice is needed, have product container or label at hand. Sec	ction 3 – Composition Information	
Chemical	CAS No.	Content
Triclopyr Butoxyethyl ester	64700-56-7	300g/L a.i.
Triisopropanolamine picloram	6753-47-5	100g/L a.i.
Other ingredients		To volume.
	Section 4 – First Aid Measures	
General	Never give anything by mouth to an unconscious person. Keep label or packaging available for emergency personal. Show this SDS to emergency personal if requested. Never give mouth to mouth to a poisoning victim – use a pocket mask to protect yourself. DO NOT induce vomiting. Contact the national POISON	
If Swallowed	CENTRE or medical practitioner immediately. If unresponsive, call 111 and request and ambulance.	
If in eyes	Rinse cautiously with water for 15-20 minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. Contact the national POISON CENTRE or medical practitioner immediately.	
lf on skin	Wash with plenty of soap and water. Wash contaminated clothing before reuse. Contact a medical practitioner if symptoms persist.	
If inhaled	Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention. If person is not breathing, call 111 and request an ambulance.	
Advice for medical personal	Treat according to symptoms. There are no specific antidotes. Seizures may develop with very high dosages. Protect airways.	

Section 5 – Fire-fighting Measures

Flashpoint	>96 °C.
Combustion Products	May give off toxic nitrogen and carbon oxides.
Flammability Limits	No available.
Protective Equipment	Self-contained breathing apparatus, protective gloves and clothing.
Extinguishing Medi	Water fog, Foam, carbon dioxide, dry chemicals.
HazChem Code	3Z.
Special Fire Fighting Methods	Prevent run off entering waterways.

IN CASE OF EMERGENCY PHONE National Poisons Centre 0800 POISON (0800 764 766)

Storage

Country Mile Brush Kill

Page 4 of 8

Section 6 – Accidental Release Measures

IMPORTANT: Isolate all ignition sources and naked lights. Use non-sparking utensils.

	Small Spill (non-emergency personal)
Spills and Disposal	Absorb spill with an inert material such as soil, sand, sawdust and place in suitable labeled container. For final cleaning up, a detergent based solvent may be required. DO NOT wash down drain.
Protective Equipment	Wear protective nitrile rubber gloves, face/eye protection and appropriate half-mask respirator (see section 8).
Environmental Precautions	Avoid entry into waterways or streams. Prevent washings from entering waterways by damming or covering drain entrances, if safe to do so.
	Large Spill (emergency personal)
Spills and Disposal	Absorb spill with an inert material such as sand, soil, sawdust and place in suitable labeled container. For final cleaning up, a detergent based solvent may be required. DO NOT wash down drain.
Protective Equipment	Wear protective nitrile rubber gloves, face/eye protection and appropriate half-mask respirator (see section 8).
Environmental Precautions	Avoid entry into waterways or streams. Prevent washings from entering waterways by damming or covering drain entrances, if safe to do so.
Prevention	 Level 1 emergency management plans need to be in place for quantities between 0.1 and 5 L. Level 2 emergency management plans need to be in place for all workplaces and or quantities between 5 L and 100 L. Level 3 emergency management plans need to be in place for quantities above 100 L.

See Hazardous Substances (Emergency Management) Regulations 2001.

Section 7– Handling and Storage

Store out of direct sunlight. Keep out of reach of children. Do not store near waterways. Do not store where damage may occur. Do not store where it may be accidentally used. Store in original container with all labels intact and legible. Store away from food, fertilisers, and seeds and in accordance with NZS 8409: Management of Agrichemicals. Do not store with classes: 1, 2, 3.2, 4, and or 5 Stores with >500 L, require at least two full size fire extinguishers. Stores containing >100 L, require secondary containment.

DONAGHYS PERFORMANCE FIRST SAFETY DATA SHEET

Date created: 05/05/2023	Country Mile Brush Kill	Page 5 of 8
Handling Approved Handler	Do not handle until all safety instructions have been re understood. Wear eye / face protection. In case of inadequate ventilation wear respiratory prote Contaminated work clothing should not be allowed out workplace. Avoid unintended release to the environment. Must be under the control of an approved handler. This hazardous substance must be under the personal approved handler when the substance is applied in a w manner; or used by a commercial contractor. For more information see Regulations 4-6 Hazardous s (Personnel Qualifications) Regulations 2001.	ection. of the control of and vide dispersive
Tracking regulations	Do not apply.	
Record Keeping	Records of use as described in NZS 8409 Managemer Agrichemicals must be kept where more than 3 L of the used within 24 hours in a place where pesticide is likely or water and leave the application area.	s product is

Section 8 – Exposure Controls/Personal Protection

These precautions are suggested for conditions where the potential for exposure to the product exists. Emergency conditions may require additional precautions.

	Workplace exposure - Not Available
Exposure Limits	Tolerable Exposure Limits: (TEL): Not Available
	Environmental Exposure Limits (EEL): Not available
Protective Equipment	Observe good work place practices and avoid contact with skin and eyes. To protect your skin and eyes, wear protective overalls, chemical resistant safety glasses and nitrile rubber gloves when handling. Wear eye / face protection. In case of inadequate ventilation, wear half mask filter respiration unit suitable for the conditions. Do not use in an irrespirable atmosphere. Gloves Wear nitrile rubber gloves with a minimum layer thickness of 0.11 mm. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.
	Respiratory protection For nuisance exposures use type P95 (US) or type P1 (EU EN 143) particle respirator. For higher level protection use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Use respirators and components tested and approved under appropriate government standards.
Hygiene Precautions	Do not eat, drink or smoke when using this product. Be careful not to contaminate yourself when removing contaminated clothing.
Engineering Controls	Handle in well ventilated area. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below exposure limits. Avoid inhalation of dust.

Section 9 – Physical and Chemical Properties

Appearance	Brown liquid
Odour	Not available
Vapour Pressure	Not available
Vapour Density	Not available
Boiling Point	Not available
Freezing/Melting point	Not available
Flash Point	96 °C
Solubility	Emulsifies in water
Density	1.1-1.3 g mL ⁻¹
Dissociation Constant (p <i>K</i> _a)	Not available

Section 10 – Stability and Reactivity

Stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Conditions to Avoid	Avoid direct sunlight; avoid generation of dust and excessive heat.
Materials to Avoid	Oxidizers.
Hazardous Decomposition Products	May give off toxic nitrogen and carbon oxides in a fire.

Section 11 – Toxicological Information

Oral LD₅₀	LC ₅₀ 803 mg kg ⁻¹ Triclopyr butoxyethanol ester. LC ₅₀ 1061 mg kg ⁻¹ Picloram. LC ₅₀ >1000 mg kg ⁻¹ Triisopropanol amine.
Inhalation LC ₅₀	Irritating >4.98 mg L^{-1} 4 hr ⁻¹
Dermal	Irritant.
Ocular	Irritant.
Carcinogenicity	Country Mile Brush Kill is not suspected of being carcinogenic.
Reproductive toxicity	Country Mile Brush Kill is not suspected of being a reproductive toxin.
Genotoxicity	Country Mile Brush Kill is not suspected of being genotoxic.
Neurotoxicity	Country Mile Brush Kill is not suspected of having subchronic neurotoxicity. Country Mile Brush Kill is not suspected of having neurodevelopmental toxicity.
